

COUNTER DAY

Schlage Electronics

MARCH

**Wednesday, March 3rd
9am to 3pm**

Nate Spitz and Sarah Russell will be showing the new AD (Adaptable Design) electronic lock portfolio from Schlage Electronics. They will have the new AD400 on hand and ready to display, and will be able to answer questions about the new adaptable design feature of this function rich, electronic locking portfolio, from Schlage.

Bring your access control questions, and applications as the dynamic duo will also have a running display of the Bright Blue Access Control system, and will be able to demonstrate software navigation as well as discuss any wiring topics that are on your mind.

One can't forget about the core mechanical line, so bring your LCN, Von Duprin and Schlage mechanical questions as well. Whether you want to discuss the new Primus XP key system, or the QEL from Von Duprin, here's your chance to get all those questions answered and more.

Enjoy treats & refreshments while viewing live demonstrations, and the latest technology you can buy.
